

## Three Pacific Place, Hong Kong

**Area:** 2,760 m<sup>2</sup>

**Architects:** Wong and Ouyang (HK) Ltd, Hugh Dutton Associates

**Structural & Façade Engineers:** Meinhardt Façade Technologies

**Specialist Contractor:** Joseph Gartner GmbH

Three Pacific Place features an innovative podium glazing system. The support columns are set back from the façade, introducing interesting structural complexities.

There are 8 different cable nets and 75 different clamp, node and spider castings. Production quantities ranged from 1 to 200. Time frame was 6 months for tooling, mock-up and production.
